ABOUT US

CubenSquare drives digital transformation by delivering expert IT solutions across industries, including banking, retail, healthcare, logistics, and more. Specializing in Red Hat OpenShift, cloud-native technologies, DevOps automation, and AI innovations, we help businesses modernize operations, enhance customer experiences, and accelerate growth.

From IT support and consulting to custom software development and corporate training, CubenSquare is your trusted partner for seamless integration of intelligent technologies. We enable organizations to harness AI, automation, and scalable cloud platforms —empowering them to thrive in an evolving digital landscape.

Core Business Units

Software Development: Designing and developing scalable, secure, and high-performance software solutions.

IT Consultation : Advisory and modernization consulting for enterprises navigating digital transformation.

IT Support Services : Comprehensive managed services ensuring performance, security, and business continuity.

IT Training & Certification : Hands-on training in DevOps, Cloud, RedHat, Cybersecurity, and Al to build real-world skills.

Bridging the Gap Between Knowledge and Validation

The Training (RH199)

- ✔ Fast-track Linux administration skills
- ✔ Real-world RHEL lab exercises
- ✔ Enterprise-focused troubleshooting

The Validation (EX200)

- 3-hour performance-based exam
- Real system administration tasks
- No internet access
- Practical command-line assessment

Validate real-world Red Hat Enterprise Linux administration expertise.

Mastering the Four Pillars of Enterprise Administration

System Management Manage services, processes, and system targets.	**Storage Administration** Configure partitions, Logical Volume Manager (LVM), and file systems.
Network & Security Configure networking, firewalls, and SELinux policies.	**User & Access Control** Manage authentication, permissions, and system security.

Build a strong foundation for enterprise Linux environments.

Red Hat Certified System Administrator Rapid Track course

RH199 | EX200

Red Hat

Red Hat Certified System Administrator

COURSE OVERVIEW

Red Hat Certified System Administrator Rapid Track (RH199) is an accelerated Red Hat Enterprise Linux system administration course designed for IT professionals with prior Linux experience. It combines core content from Red Hat System Administration I & II into a concentrated format to prepare you for real-world system administration tasks

Audience:

System administrators, platform engineers, developers, and other IT professionals with a working knowledge of Linux command line looking to expand their skills and prepare for certification.

Key Learning Outcomes:

✔️ Perform essential Red Hat Enterprise Linux system administration tasks confidently.

✔️ Manage users, storage, networking, services, and security using command-line tools.

✔️ Troubleshoot and maintain RHEL systems in real-world enterprise environments.

COURSE DETAILS

Course Name	**Red Hat Certified System Administrator Rapid Track course**
Duration	5 Days (40 Hours)
Format	Instructor-Led with Hands-On Labs
Level	Beginner
Included	✓ Red Hat Ebook ✓ Certification Exam ✓ 1 Exam Retake* Redhat Lab

*Terms and conditions apply.

MASTER THE ESSENTIALS

RH199 | EX200

Course Outline

Learn essential Red Hat Enterprise Linux configuration, administration, and maintenance in a condensed format designed for experienced Linux system administrators.

- Registering Systems for Red Hat Support
- Editing Text Files
- Controlling Access to Files
- Installing and Updating Applications by using Flatpak
- Monitoring and Managing Linux Processes
- Analyzing and Storing Logs
- Managing Basic Storage
- Controlling and Troubleshooting the Boot Process
- Managing Network Security
- Comprehensive Review
- Managing Files from the Command Line
- Managing Local Users and Groups
- Installing and Updating Software with RPM
- Accessing Removable Media
- Controlling Services and Daemons
- Managing Security with SELinux
- Managing Storage with Logical Volume Manager
- Recovering Superuser Access
- Accessing Network-attached Storage

CERTIFICATION EX200

Red Hat Certified System Administrator

Format	Hands-on Lab Exam
Duration	3 Hours
Retake	1 Exam Retake FREE

Contributes to RHCA Path

WHO SHOULD ATTEND

✔️ Linux system administrators growing their Red Hat skills
✔️ Platform & infrastructure engineers working with RHEL
✔️ IT professionals preparing for RHCSA certification
✔️ DevOps engineers needing foundational Linux administration

Standard

- The exam is a performance based evaluation of candidates
- No Internet Access, no notes, Real world tasks only

Preparation Strategy

The Golden Rule: Attendance in class does not guarantee success. Experience is key.

1. **Attend** **RH199 :** For structured, hands-on learning of the syllabus.
2. **Hands-on Practice:** Focus on the "Study Points" (Multus, OADP, Live Migration) in a lab environment.
3. **Review Objectives:** Ensure familiarity with every task listed in the official **EX200** objectives.

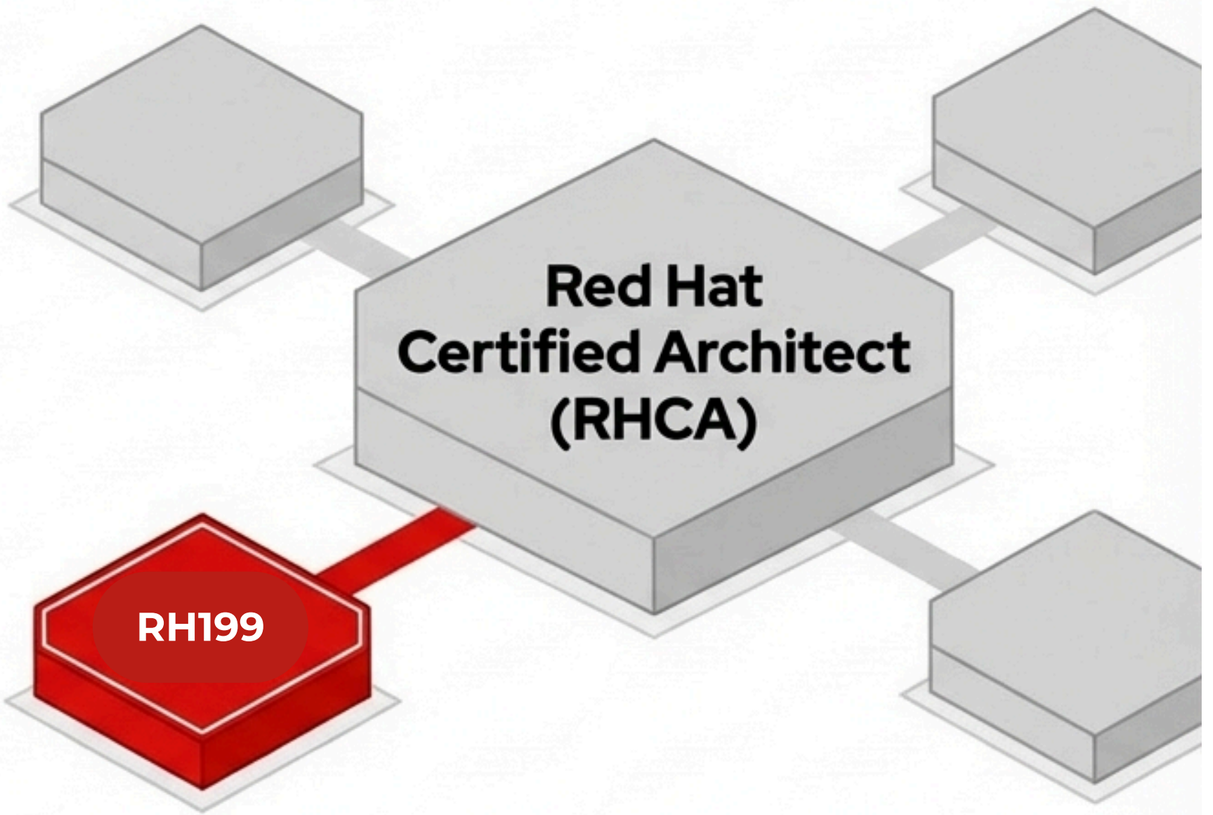

Note: Internet access is NOT provided during the exam. Memorize the workflows, not the commands.

Why Choose CubenSquare

- **Instruction by Red Hat Certified Architects:**
  Delivered by Redhat Certified Architect and Redhat Certified Professionals
- **End-to-End Delivery Expertise:** Our knowledge is built on real-world consulting, implementation, and migration projects.
- **Combined Training + Implementation Capability:** We don't just teach the theory; we actively build and manage OpenShift platforms.
- **Intense Hands-On Lab Focus:** We emphasize practical skills that your team can apply immediately.
- **Post-Training Support and Mentoring:** We provide ongoing guidance to ensure your team's success after the course.

REAL-WORLD CASE STUDIES

Success Stories & Next Steps

Enterprise SysAdmin Uplift

A services company trained teams on RH199 to manage RHEL servers; result: improved uptime and faster problem resolution.

DevOps Enablement:

An IT team gained essential admin skills, reducing environment inconsistencies and improving automation adoption.

Cloud Migration Foundation

A tech startup standardized on RHEL with RHCSA certification, leading to smoother hybrid cloud deployments.
